

Bicycle Training

Dear Parents,

Cycling is an important building block in school mobility and traffic education. We would like to prepare your child to deal with road traffic with suitable bicycle training. The focus should be on having fun and improving your child's riding skills, because it is only when children ride a bicycle safely that they enjoy this healthy and environmentally friendly form of exercise. To ensure that your children also find long-term fun and excitement in cycling, I would ask you to ride along and motivate them to exercise healthily.

On xxx, we will start with practical cycling exercises on the school grounds, so please ensure he/she carries her bicycle to school on the day. Moreover, make sure that the bicycle is in proper operating condition. As you might imagine, helmets are mandatory for all practical exercises on the schoolyard, so do not forget to bring your kid's helmet along.

To ensure a smooth-running bicycle training on our schoolyard, I would need three parents helpers (without bicycle). I would be very pleased to have you as a helper that day.

Many thanks!

Yours sincerely,

In the lower section, please specify your child signed up to xxx in the school:

Full child's name: _____

- Yes, I agree to my child's participation in the bicycle training.
- No, I don't agree to my child's participation in the bicycle training.
- My child's bike is in proper operating condition.
- I wish to lend my support to the bicycle course.
