

## **Bicycle course**

Dear parents,

In our project week, we would like to offer all pupils a special experience with their bicycles. Children will ride their own bicycles for a double lesson on a special, age-appropriate children's bicycle course, where they will enjoy numerous new cycling experiences.

On the course day, please ensure your child carries his/her bicycle to school. As you might imagine, helmets are mandatory for all practical exercises on the schoolyard, so do not forget to bring your kid's helmet along. We keep a few helmets in stock just in case. Furthermore, your child should be equipped with knee and elbow protectors. To allay any safety concerns you might have, let me assure you that we will not practice any dangerous tricks, but rather promote cycling skills with exciting course elements.

To set up and use all stations, however, we would need a few helping hands. In particular, we would require four parents per class for a double lesson to help us with the course work.

In the morning before the first group comes, the assembly starts at 7.30 am; in the afternoon, as the last group leaves, we would need your help with disassembly until 1.40pm. If you can help at the appropriate time, please note so in the section below. We sincerely appreciate your support.

Yours sincerely,

**In the lower section, please specify your child up to xxx signed in the school:**

---

**Full** child's name: \_\_\_\_\_

- Yes, I agree to my child's participation in the bicycle course.
- No, I do not agree to my child's participation in the bicycle course.
- My child's bicycle is in proper operating condition
- I wish to lend my support to the bicycle course.
